EDUCATION

MSc in Computer Science (Data Science)
Università degli studi di Trento

📅 2017 - march 2020   📍 Trento, Italy

110/110

BSc in Computer Engineering
Università degli studi di Modena e Reggio Emilia

📅 2014 - 2017   📍 Modena, Italy

105/110

Diploma in Informatics and Telecommunications
ITI Leonardo da Vinci

📅 2009 - 2014   📍 Carpi (Mo), Italy

95/100

EXPERIENCE

Developer C/C++ Internship
Autron srl

📅 July 2015 – August 2015   📍 Concordia sulla Secchia (Mo)

- Software development in automotive industry with Qt libraries

ABOUT ME

I moved to Italy when I was 15. There I developed an interest for programming so I began a high school with specialization in Informatics and Telecommunications, followed by a bachelor degree in Computer Engineering at the university of Modena and Reggio Emilia (Italy) and a master in Data Science at the university of Trento (Italy).

During my lifetime I had the opportunity to meet people from different cultures and backgrounds and I am at ease with anybody.

I am passionate about computer science and sciences in general. I believe that continuous learning is a privilege rather then an obligation.

I am happy to work both alone or with others. During my studies and work experiences I collaborated with people on different projects and I always enjoyed the group work. I am autonomous at organizing and carrying out my job.

SKILLS

Python | C/C++ | Java | SQL

Linux | Bash | Git

Machine learning | Data mining | Optimization | Data analysis

OOP | Design patterns

CERTIFICATIONS

Docker Mastery: with Kubernetes + Swarm & Captain's Certificates   *verify*

First Certificate in English   *verify*
