105/110

Diploma in Informatics and Telecommunications
ITI Leonardo da Vinci

📅 2009 - 2014   📍 Carpi (Mo)

95/100

ABOUT ME

I am passionate about computer science and sciences in general. I believe that continuous learning is a privilege rather then an obligation. I am happy to work both alone or with others. During my studies and work experiences I collaborated with other people on different projects and I never had any problem. I am autonomous at organizing and carrying out my job.
I moved to Italy when I was 15. During my lifetime I had the opportunity to meet people from different cultures and backgrounds and I am at ease with anybody.

SKILLS

Python | C/C++ | Java | SQL

Linux | Bash | Git

Machine learning | Data mining | Optimization | Data analysis

OOP | Design patterns
